TOUCHWOOD
INTERIOR CONTRACTING

Touchwood was founded in 1976 as part of Bukhatir Group and quickly established itself as one of the leading interior contracting firms in the GCC.

At Touchwood we have been consistently successful in giving life to even the most challenging of our clients' demands, thanks to the imagination and creativity of our designers, engineers and craftsmen who are among the very best in the industry. They also have the experience and maturity to plan and execute every project with perfection regardless of any possible time, space or budget challenges.

Touchwood's portfolio includes some of the most high profile projects across the GCC, Middle East and North Africa. Through our creativity and superior quality we have been working hand in hand with our valued clients who demand nothing but the best.

The state of the Art facility covering 110,000 sq.ft. in Sharjah has recently undergone modernization. Touchwood have added a number of modern machine making the company one of the more sophisticated manufacturers in wooden joinery and finishing. This, together with a substantial increase in capacity, has enabled Touchwood to handle larger and more complex projects to the complete satisfaction of their clients.

مجموعة بوخاطر
Bukhatir Group

STRENGTH THROUGH DIVERSITY.

The Bukhatir Group is one of the largest and most diversified business houses in the United Arab Emirates. Its main interests straddle Construction, Education, Information Technology, Real Estate, Shopping & Retail, Sports & Leisure and Services. The geographical domain of the Bukhatir Group spans over half the world from North America to North Africa, West and South Asia. The group has an employee base of over 5,000 and its current aggregate annual turnover stands at AED 3 billion approximately.

The giant multinational business empire of today was born in 1974 thanks to a charter of incorporation for Bukhatir Investments Limited issued to the young entrepreneur Abdulrahman Mohamed Bukhatir by His Highness Sheikh Sultan bin Mohammed Al Qasimi. Riding the crest of the powerful sociological and economic changes that swept the West Asian region in the mid 1970s, Abdulrahman Bukhatir quickly identified diverse avenues for investment, beginning with opportunities in the construction industry.

JOINERY

JOINERY

Certified by ISO 9001, ISO 14001 and driven by a dedicated team of over 500 well-trained skilled workforces along with a group of over 70 highly competent technical and professional staff.

The State-of-the-art facility has allowed Touchwood to successfully complete works for prestigious clients as well as working with leading Contractors, Architects and Designers for all their carpentry & joinery requirements.

The prime reason for the development of a fully fledged in-house division for manufacturing was to ensure that we have total control over quality, time and budget in our projects.

Lean engineering is implemented across all manufacturing processes to ensure maximum productivity and efficiency at each and every stage. Our joinery division is very flexible and able to supply any customer requirement – whether it's mass produced or custom bespoke.
